Professional Applications

Focusing on every detail of machine design, our experts have endeavoured to make Navi the simplest to use ultrasound on the market. Navi is designed to be indispensable as previously difficult tasks become routine with sight. "Seeing is believing" and with the Navi there will be no more stabbing in the dark.

19-inch Industry Largest Touch Screen

Dedicated Probe Holder for Disinfection

7 Hours Battery for Whole Day Operation

wiLearn Education Centre

Developed for improving anesthesiology education cost, wiLearn covers most procedures you come across every day.

Battery Duration Time Display

Electric Height Adjustable

Large Wheel

Comprehensive Range of Applications

The wide range of transducers available means you will never be limited to applications, from large patients to the smallest of paediatrics – the Navi can do it all.

The innovative mid-line design along with the project probe direction indicator provides outstanding accuracy and best user experience.

Probe Button

Smart-design button on both sides of probe, allows user to readily interact with the system by freeing both occupied hands.

Hockey Stick Probe

A dedicated probe for distal extremity use, with very high frequency and light weight design, it is a perfect tool for excellent detail imaging and limited space operation.

Brachial Plexus

Intercostal Nerve

Median Nerve

CVC

Sciatic Nerve

Vertebral

Heart 4-Chamber

Twin Pregnancy
